About

Aspiring DevOps Engineer with **AWS Certified Solutions Architect Associate certification** and hands-on experience in **S3, CloudFront, EC2, RDS, ALB, and Auto Scaling**. Transitioned from 3.5 years in Siebel CRM to AWS, focusing on **cloud architecture, automation, and infrastructure as code (IaC)**. Strong analytical and problem-solving skills, eager to contribute to cloud-driven projects.

Education

2016 – 2020

B.Tech in Computer Science

Lourde Matha College of Science & Technology

Graduated in May 2020 with a GPA of **8.19**

Experience

Wipro

Associate Consultant | Jun 2024 – Present

- Developed and maintained a data processing pipeline using API Gateway, RDS (PostgreSQL), and AWS Lambda to automate scheduled tasks.
- Optimized data storage in S3, generating Excel reports for Informatica team processing.
- Ensured seamless data integration and workflow automation across systems.

Project Engineer | Dec 2021 – May 2024

- Developed and customised Siebel CRM applications, including applets, business components, views, and workflows, to align with business requirements.
- Designed and implemented Siebel integrations using Web Services, EAI, and Oracle SQL for seamless data exchange.
- Collaborated with cross-functional teams, including business analysts and developers, to define and implement scalable solutions.
- Conducted functional and performance testing, ensuring high-quality Siebel deployments.
- Participated in full software development lifecycle (SDLC), including project planning, implementation, and deployment.

Certifications

AWS Solutions Architect – Associate

February 2025

Validates expertise in designing scalable, secure, and cost-effective cloud architectures on AWS.

AWS Cloud Practitioner

September 2024

Demonstrates foundational AWS knowledge, including cloud concepts, services, and best practices.
